Chapter 1: Notation and Chart Reading Key

From Elton John to Alicia Keys, the pop ballad is one of the most common song formats in modern music. Deep, moving lyrics and soulful, passionate singing are some of the characteristics of pop ballads, as well as the presence of a dynamic chordal instrument such as an acoustic piano (as a keyboardist it is vital that you are able to supply proper accompaniment, or “comping,” in a multitude of styles and genres). Proper use of the acoustic piano (or at least a high-quality acoustic piano sound on a keyboard) plus proper sustain pedal technique will ensure you are delivering the right background sounds for the song at hand.

In this unit, the basic controls of a digital keyboard (or synthesizer), chart notation and the keyboardists role in the rhythm section will be discussed. To this end, we have included exercises involving chordal accompaniment, pads and other techniques commonly used in the pop ballad.

Basic Chart Notation: A *chart* is another word for sheet music that displays the information needed to play a song. Some charts are more detailed than others, but most keyboard charts contain at least the following:

The Grand Staff: Featuring both the *treble clef* (for right hand notes) and the *bass clef* (for left hand notes), the grand staff is bracketed together and also displays the *time signature*. Here, 4/4 indicates there are four beats in a measure and a quarter note gets one beat.

Ex. 1.1

The Grand Staff

Chord symbol: Indicates what chord quality is needed for a measure or part of a measure.

Fingerings: Indicates which fingers of the hand to use for the displayed part or voicing. *Please note* that fingerings are most often omitted in charts and are only provided here for instructional purposes.

Ex. 1.2

Tempo Marking: Indicates the tempo/speed of the music by showing how many beats per minute (BPM) are heard, also known as a *metronome marking*. In this example, the rate of the quarter note is shown, but any subdivision (such as eighth or 16th) can be displayed here.

Ex. 1.3

Tempo marking

♩ = 70

C F

Rehearsal Letters: These are symbols that are used to identify certain sections within a chart such as *verse* and *chorus*. Each symbol can also denote a change in feel or overall groove.

Ex. 1.4

Rehearsal letters

A B

C F

Double Barline: Signifies the end of a phrase.

Start Repeat Sign/End Repeat Sign: Indicate that a certain musical phrase will be repeated.

Final Barline: Marks the end of a composition.

Ex. 1.5

Double barline

Start repeat

End repeat

Final barline

Chapter 2: Basic Keyboard Controls

On/Off Switch. There are a few different configurations of this basic control. Most involve a form of toggle. *Toggle:* to alternate between two or more electronic, mechanical, or computer-related options, usually by the operation of a single switch or keystroke.

Here are a few examples:

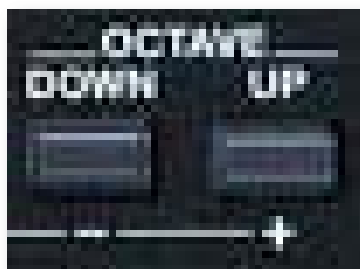

Ex. 1.6, 1.7, 1.8

Volume Knob. Usually either a knob, a button or a slider control. (Note that on MIDI controller keyboards, this control can be disabled.)

Ex. 1.9, 1.10, 1.11

Octave Buttons. The plus sign is used to shift the entire keyboard up an octave (eight notes). The minus sign is used to shift the entire keyboard down an octave (eight notes). This is an especially helpful tool for smaller keyboards that do not have the full 88 key range.

Ex. 1.12

Pitch Bend Wheel. The pitch bend wheel raises or lowers the pitch by bending the wheel upwards or downwards. This is an excellent way to create a more expressive melodic line.

Ex. 1.13

Some pitch bend wheels come in the form of a joystick.

Ex. 1.14

Modulation Wheel or "Mod Wheel." The modulation wheel can control vibrato, tremolo and many other effects.

Ex. 1.15

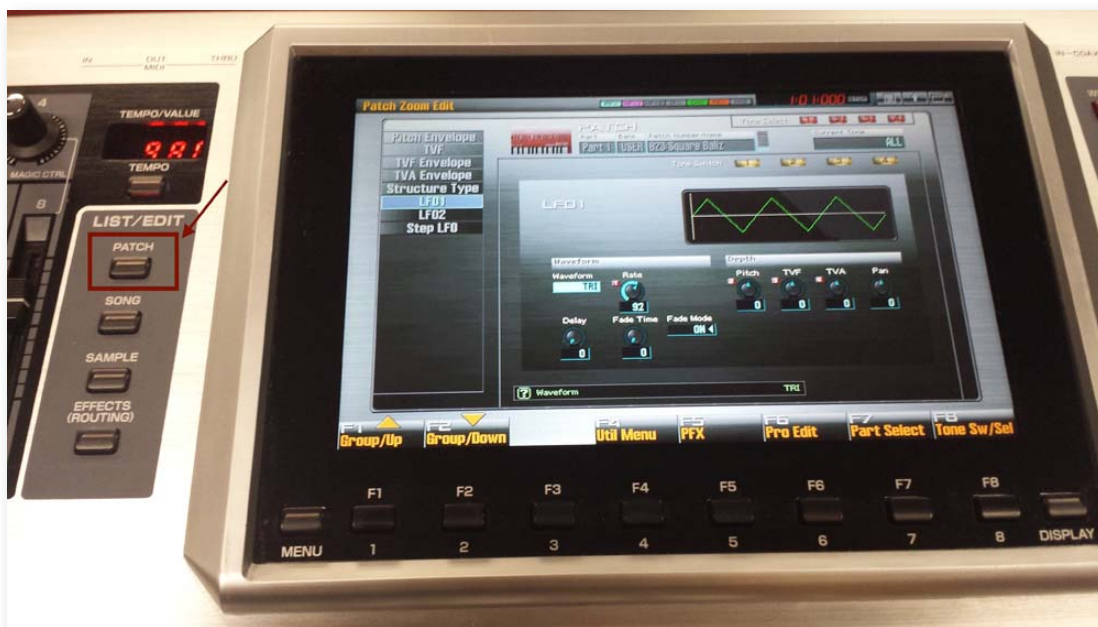

Some modulation wheels come in the form of a joystick.
Ex. 1.16

Main Screen. Many of today's keyboards have a main screen where you can select patches and customize and save sounds.

Ex. 1.17: Select patch.

Ex. 1.18: Customize sound.

Ex. 1.19: Save sound.

Scrolling Wheel. There is usually a wheel to the right of the main screen.

Ex. 1.20

Selector Buttons. These buttons scroll through different patches and command screens.

Ex. 1.21

Chapter 3: Notation, Structure and Rhythm Section Concepts

Notation

As mentioned previously, we will be using charts to learn the musical concepts in this unit. Included in most charts are musical “phrases.” *Phrase*: A short passage or segment, often consisting of several measures, forming part of a larger unit. We will explore the common eight-bar phrase (*bar* is another word for measure).

Other structural elements of the chart include: time slashes, time slashes with chords written above, rehearsal letters, repeat signs and a tempo marking. These elements will be discussed below.

Structure: Eight-Bar Phrase

This chart utilizes an eight-bar phrase. The phrase is eight bars (measures) long and each bar after the first displays *time slashes*.

Time Slashes: Time slashes are a shorthand method of displaying the quarter-note pulse (or any subdivision) of a measure. They also denote the composer’s requirement that the keyboardist continue to play a similar pattern to the one fully notated in bar one.

Ex. 1.22

The image shows two staves of music in 4/4 time. The first staff begins with a treble clef and a 4/4 time signature. The first four measures contain triadic chords (C major, F major, C major, F major). The remaining four measures are filled with diagonal slashes, representing time slashes. A bracket above the slashes is labeled "Time slashes". The second staff starts with a measure rest (a '5' above the staff) and continues with four measures of diagonal slashes.

Time Slashes with Chord Symbols Written Above: Example 1.23 demonstrates measures of music written with *chord symbols* above each measure. *Chord symbols* denote the chord quality required for each measure. In this case, the composer requires a triadic chord voicing similar to the one displayed in bar one to be played in every bar in quarter-note pulses.

Ex. 1.23

The image shows two staves of music in 4/4 time. The first staff begins with a treble clef and a 4/4 time signature. The first four measures contain triadic chords (C major, F major, C major, F major). The remaining four measures are filled with diagonal slashes, representing time slashes. Above the slashes are chord symbols: C, F, C, and F. A line points from the label "Chord symbols" to these symbols. The second staff starts with a measure rest (a '5' above the staff) and continues with four measures of diagonal slashes, with chord symbols C, F, C, and F written above each measure.
